

# BRIEF:

## **DISINFORMATION AND BUSINESS-RELATED SOURCES** HOW AMERICANS PERCEIVE BUSINESS-RELATED SOURCES AND THEIR ROLE IN DISINFORMATION

This report examines American attitudes toward certain information sources and their role in spreading disinformation, or deliberately misleading or biased news or information. While some may call this “fake news,” “false news” or even use it interchangeably with “misinformation,” this report uses the term “disinformation” for consistency and clarity in terminology.

Results are based on a nationally represented survey of 2,200 Americans conducted by Morning Consult from March 19-24, 2019.

BY THE INSTITUTE FOR PUBLIC RELATIONS

# WHICH BUSINESS-RELATED SOURCES DO AMERICANS VIEW AS MOST TRUSTWORTHY?

## *The Trustworthiness of Business-Related Sources*

Business Related Sources	Percentage with at Least "Some" Trust in Source
College and University Professors	<b>46%</b>
Journalists	<b>45%</b>
Public Relations Professionals	<b>26%</b>
Companies/Corporations	<b>26%</b>
CEOs	<b>22%</b>
Marketers and Advertisers	<b>20%</b>

Americans placed the most trust in college and university professors (46%) and journalists (45%).

Fewer Americans trust public relations professionals (26%), companies/corporations (26%), CEOs (22%) and marketers/advertisers (20%).

Political affiliation clearly plays a role in how much respondents trust certain professions. Most Democratic respondents said they trust journalists (64%), whereas only one in three (31%) Republican respondents said they had "some" trust in journalists. Political affiliation also divided respondents on their level of trust in college and university professors, as Democrats (65%) were more likely to trust professors than Republicans (28%).

An individual's political affiliation did not affect their perception of trust of public relations professionals, companies/corporations, CEOs, or marketers and advertisers.

# WHICH BUSINESS-RELATED SOURCES DO AMERICANS BELIEVE ARE RESPONSIBLE FOR SPREADING DISINFORMATION?

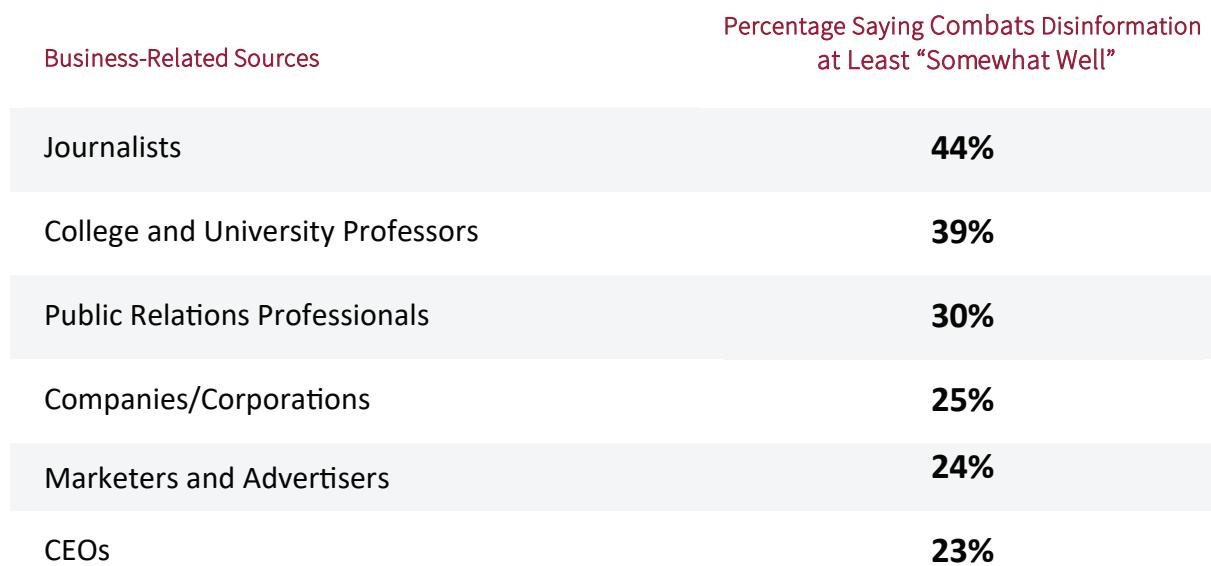

## *Business-Related Sources Responsible for Spreading Disinformation*

A majority of Americans said marketers and advertisers were “very” responsible for spreading disinformation (65%), followed closely by journalists (63%). Political affiliation only played a role with journalists and college/ university professors. Republicans (71%) were more likely than Democrats (52%) to say journalists were at least “somewhat responsible” for spreading disinformation, and Republicans (61%) were also more likely than Democrats (34%) to say college and university professors were responsible.

# WHICH BUSINESS-RELATED SOURCES COMBAT DISINFORMATION WELL?

## *Top Business-Related Sources for Combatting Disinformation*

The information sources combatting disinformation the best were journalists (44%) and college/university professors (39%). Political affiliation did impact responses for these two occupations. The majority of Democrats (62%) said journalists were doing at least “somewhat well” at combatting disinformation compared to only one-third (32%) of Republicans. Additionally, Democrats (52%) were more likely than Republicans (26%) to say that college and university professors were doing at least “somewhat well” with combatting disinformation.

# WHICH BUSINESS-RELATED SOURCES DO AMERICANS BELIEVE SHOULD BE MOST RESPONSIBLE FOR COMBATTING DISINFORMATION?

*Business-Related Sources that Should Be Most Responsible for Combatting Disinformation*

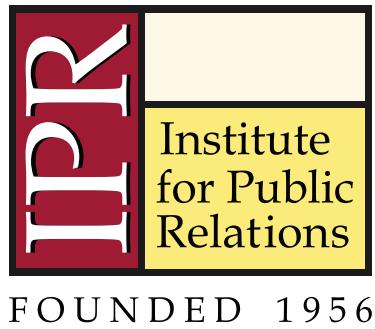

Business Related Sources	Percentage Saying Source Should be Responsible for Combatting Disinformation
Journalists	<b>83%</b>
College and University Professors	<b>79%</b>
Public Relations Professionals	<b>76%</b>
Companies/Corporations	<b>72%</b>
Marketers and Advertisers	<b>72%</b>
CEOs	<b>71%</b>

Among the information sources considered, respondents said journalists (83%), public relations professionals (79%), and college and university professors (76%) should be most responsible for combatting disinformation in the media. Political affiliation did not play a role. Of the business-related sources, seven out of 10 respondents said each of the sources have a responsibility to combat disinformation.

# METHODOLOGY:

This poll was conducted between March 19-24, 2019 by Morning Consult among a national sample of 2,200 adults. The interviews were conducted online and the data were weighted to approximate a target sample of adults based on age, educational attainment, gender, race, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.
